SUMMARY

Full-stack developer with 5+ years of experience building high-performance web and mobile applications. Skilled in React, Next.js, Node.js, and React Native, with a focus on clean code, UI/UX excellence, and business-driven results. Passionate about solving real-world problems through technology.

TECHNICAL SKILLS

- **Languages & Frameworks:** JavaScript, TypeScript, Next.js, React.js, React Native, Flutter, Node.js, Express.js.
- **Databases & State Mgmt:** MongoDB, PostgreSQL, MySQL, Redis, Firebase, Supabase, Redux Toolkit, Zustand.
- **DevOps & Tools:** Docker, AWS (S3, EC2), GraphQL, Prisma, TailwindCSS, Git.

EXPERIENCE

Lead Developer

Jamil Ifat Production

Remote, UK

Jan 2024 – Present

- Architected a high-traffic restaurant reservation ecosystem, achieving sub-100ms latency for real-time data sync between web and mobile clients.
- Engineered a custom React Native app used by 50+ restaurant owners, increasing administrative efficiency by 30% through live analytics dashboards.
- Constructed a scalable Node.js/MongoDB backend capable of handling 500+ concurrent connections, ensuring 99.9% uptime for community interactions.
- Orchestrated automated deployment pipelines on AWS, reducing release cycles by 40% while maintaining strict security protocols.

Full Stack Web & Mobile App Developer

Webbyte Studios

Remote

2023 – 2025

- Delivered 30+ full-scale MERN projects and 10+ mobile apps, consistently meeting strict performance targets and driving a 20% increase in client retention.
- Directed development of 10+ cross-platform apps, cutting development time by 50% by implementing shared React Native & Flutter component libraries.
- Managed cloud infrastructure on VPS/AWS for international clients, ensuring zero downtime during high-traffic promotional events.

Freelance Full Stack Developer

Independent Projects

Global & Local

2020 – Present

- Launched 50+ production-grade web solutions, optimizing page load speeds by 35% via Next.js server-side rendering and efficient caching.
- Designed and maintained mobile applications with active user bases, providing long-term support that reduced bug reports by 60% post-launch.

KEY PROJECTS

Aptiv (Jamil Ifat Production) | Next.js, React Native, Node.js, MongoDB

Live Link

- A social web and mobile platform for exploring and reviewing local restaurants.
- **Highlights:** Location-based recommendations, social feed with media sharing, user authentication.

Music Distribution Dashboard | Next.js, Node.js, MongoDB, AWS S3

Live Link

- A creator-focused dashboard for uploading, managing, and monetizing music.
- **Highlights:** Track analytics, automated royalty reporting, secure AWS S3 storage.

Dubai Pest & Services Management | React, Node.js, MySQL, Stripe

Live Link

- A scheduling and management solution for businesses offering multiple on-demand services.
- **Highlights:** Real-time booking, automated reminders, role-based access for staff and clients.

Webify - Multi-Tenant SaaS Platform | Microservices, Node.js, AI/LLM

Live Link

- A multi-tenant SaaS e-commerce platform supporting unlimited stores per tenant.
- **Highlights:** Isolated database schemas, AI-powered analytics, real-time inventory management.

EDUCATION

B.Sc in Computer Science and Engineering

Bangladesh University of Business and Technology (BUBT)

2022 – 2026
